DATE

COMPANY X RECALLS PRODUCTS BECAUSE OF POSSIBLE HEALTH RISK

Company X. of Anywhere, TX, is recalling products because they have the potential to be contaminated with Salmonella, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

The recalled products were distributed nationwide in retail stores.

The product comes in a package marked with lot # 00000 on the top and with an expiration date of 12/30/19 stamped on the side.

No illnesses have been reported to date in connection with this problem.

The potential for contamination was noted after routine testing by the company revealed the presence of Salmonella in some packages.

Production of the product has been suspended while FDA and the company continue their investigation as to the source of the problem.

Consumers who have purchased the product are urged to return them to the place of purchase for a full refund. Consumers with questions may contact the company at 1-800-XXX-XXXX.
